

CYRICK KYLE B. TAPAY

tapaycyrickkyle@gmail.com ❖ +G39155383185 ❖ Dolores E. Samar, Philippines ❖ <https://cyricktapay.vercel.app>

PROFESSIONAL SUMMARY

I am a motivated and adaptable Information Technology student with experience in web, desktop, and mobile development, UI/UX design, and digital creativity. I stay updated with AI and automation to improve workflows, efficiency, and problem-solving, and I am currently seeking an internship opportunity to contribute, learn, and grow through real-world experience.

PROJECTS

TESDA E-Assess

March 2026 - Present

Full-Stack Developer

<https://github.com/tapaycyrickkyle/tesda-e-assess>

- Built role-based interfaces, structured form workflows, and dashboard pages for a web-based assessment and records management system, improving submission, review, and tracking processes for multiple user roles.

Business Chatbot AI

April 2026 - Present

Full-Stack Developer

github.com/tapaycyrickkyle/chatbot-ai

- Developed an administrative dashboard for managing Facebook Page chatbot clients, FAQ content, and AI- and keyword-based conversation workflows, helping streamline chatbot configuration and content management. The project remains ongoing with additional feature development.

Doro

May 2026

Full-Stack Developer

<https://github.com/tapaycyrickkyle/doro>

- Developed a desktop productivity timer with fullscreen rest mode, custom video playback, audio support, and local data handling, including restricted user interaction during rest sessions to support focus and workflow continuity. Published the application on the Microsoft Store.

Alpha Nova Kids

February 2026 - April 2026

Full-Stack Developer

github.com/tapaycyrickkyle/alpha-nova-kids

- Developed a mobile learning application supported by a web-based content management portal for handling educational content, images, and audio, improving content delivery and maintenance across the platform.

Bayanihan

October 2025

Full-Stack Developer

github.com/tapaycyrickkyle/bayanihan

- Built a community issue reporting and monitoring system with photo uploads, upvoting, comments, and status tracking, improving the reporting and moderation of local concerns.

EDUCATION

Eastern Samar State University (ESSU) - Main Campus

2023 - Present

Bachelor of Science in Information Technology (BSIT)

Brgy. Maypangdan, Borongan City, Eastern Samar, Philippines
